

# Bringing the Protective Factors to Life

Are you familiar with the Protective Factors?

There are five family strengths, known as protective factors, and when they are present and robust, families thrive, children grow, and communities flourish. The Strengthening Families™ Protective Factors Framework identifies these five protective factors and everyday actions that anyone whose work touches families can take to promote them in families.

Join NH Children's Trust to learn how you can bring The Strengthening Families™ Protective Factors Framework into your work!
